DETAILED ACTION

1. This office action is in response to communication filed on 4/25/05. Claims 1 – 24 are pending on this application.

Election/Restrictions

2. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claim 1 - 12, 16 – 24, with respect to independent claims 1, 7, 12, 16, and 21, drawn to auto-precharge the memory bank responsive to the timer reaches a predetermining value, classified in class 365, subclass 203.
 - II. Claims 13 – 15, with respect to independent claim 13, drawn to reading a first data bit from a cell in response to the received read command; and using a page mode to read a second data bit from a second cell in response to a second read command, classified in class 365, subclass 189.01.
3. The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I has separate utility such as initiating a timer, invention II has separate utility such as reading a first data bit and using a page mode operation to read a second data bit. See MPEP § 806.05(d).

4. Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II, restriction for examination purposes as indicated is proper.
5. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
6. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Dang T. Nguyen whose telephone number is 571-272-1955. The examiner can normally be reached on 8:30 - 5:00.
